

## **Director Decarbonization**

### **About Deloitte**

The world around us is constantly changing and will continue to change radically in the coming years. Geo-political developments, climate change, the COVID crisis, new technologies; no company or organization can avoid the consequences of far-reaching digitization and computerization.

Deloitte translates these challenges and market problems of the future into creative and innovative solution across industries.

Deloitte is a professional services company with 330.000 employees worldwide and has offices in more than 150 countries. With more than 6,700 employees and 14 offices throughout the Netherlands, Deloitte is one of the largest providers of professional services in the field of audit & assurance, tax advice, consultancy, risk advice and financial advice. Professionals are working in multidisciplinary teams and therefore have a very broad vision of the issues of our clients.

Deloitte is the reliable and innovative partner that provides insight to clients into opportunities for their future business. Their approach combines intellectual leadership, industrial expertise, insight, consulting & problem-solving capabilities whatever the role, technology revolutions and innovation from multiple disciplines to help their clients excel anywhere in the world.

Making an impact that matters through decarbonization. [At Deloitte.](#)

### What impact will you make?

Your focus on decarbonization helps companies define and achieve their Net Zero or Net Positive objectives. As a Director Decarbonization, you will deliver end-to-end decarbonization support. You will benefit from your expertise and experience in decarbonization strategy and transformations, including understanding of the relevant business and operational impact, change management and financial aspects, when delivering on what's in the client's best interest in the context of society's needs. You will develop and deliver our key decarbonization related service offerings, and work with our ecosystem of industry experts, offering leaders, and external partners to grow our footprint across different industries.

### How do you do this?

- apply your extensive knowledge and experience in decarbonization related service development and delivery
- leverage your network to create opportunities in the market build connections with colleagues and business partners to deliver end-to-end decarbonization services
- reinforce Deloitte's reputation through thought leadership and engagement
- contribute to the development of our staff and shaping our team

You will be part of our dedicated Consulting Sustainability & Climate team, supporting and guiding our industry and account teams, and working closely with our Risk Advisory, Financial Advisory, Tax & Legal and Audit and Assurance service lines at clients in the Netherlands and our wider Deloitte North and South Europe region.

### Be the true you

Naturally you want to get to the heart of the client's real issue and you constantly discover new ways to solve difficult problems. But most importantly, be the true you. The one and only you. With your personal strengths, view of the world and unique personality.

You need the following qualifications for the position of Director Decarbonization:

- 10-15 years of experience in professional services, in an 'engagement leader' capacity
- at least 8 years of experience in decarbonization related activities
- evidence of operating at a senior level with a broad understanding of decarbonization across industries (including food & agriculture, energy, manufacturing, chemical and financial industry)
- proven experience in working on at least two of the following areas: Net Zero/Positive strategy and (science based) target setting, energy or food system transition plan formulation and implementation, value chain decarbonization, carbon credits experience in managing and delivering large and complex projects a high aptitude for identifying, establishing and maintaining client relationships experience in drafting and delivering proposals and client pitches independently excellent written and oral business communication skills (English), with fluency in Dutch a bonus, not a requirement.
